Full-Stack Developer

SUMMARY

I'm a Full-Stack Developer with experience in React, Node.js, Express, MongoDB, and Firebase. I enjoy building projects like e-commerce and hostel management systems, focusing on creating reliable and scalable applications. I like solving problems and putting together complete solutions that actually work in real-world use.

PROJECTS

E-Commerce Website

- Built a responsive e-commerce platform using **React, Firebase, JSON Server, and Bootstrap**, featuring product browsing, cart management, and checkout flow.
- Implemented **authentication and real-time data handling with Firebase**, and optimized UI/UX with **ReactBootstrap** components.
- Added **search and filter functionality** to enhance product discoverability and user experience.

Hostel Management System

- **Developed a hostel management platform using MongoDB, Express, React, Node.js, featuring OTP-based login and role-based access (Admin, Warden, Student, Security).**
- Built an **Admin Dashboard** for user/room management and complaint tracking, with secure **JWT authentication** and a responsive UI.
- Implemented **real-time complaint status tracking** to improve transparency for students and admins.

CERTIFICATION

Master in Full-Stack Development   **May-2023 to September-2025**

Red and White Multimedia specializes in providing IT courses Specialization in FullStackDevelopment.

EDUCATION

Bachelor of Computer Application(BCA)

Vidhyadeep University

- I am now in the fifth semester, have completed two years with a good SGPA.

June 2023 to Present
